

Once they are away from the pillar, she asks if they know why Fred was so mad. When they don't respond, she realizes they may not actually know what was wrong. Rather than getting angry, she points out the problem and explains that they must always do a thorough top to bottom inspection before letting anyone use a scaffold that AMB builds.

Fay brings up OSHA's e-tool on her tablet, reads aloud the instructions for properly inspecting a scaffold and asks Tim and Terrie to repeat the steps and requirements so she can clarify any misunderstandings. Once Fay is satisfied that they understand all of OSHA's inspection steps, she says she'll go with them and watch as they replace the guardrail, re-inspect the scaffold, and fill out the tag indicating that it's 100 percent compliant and ready for the masons to use.

2. STORMY WEATHER

Sam – *AMB, Inc.* Superintendent
Francis – *s d d* Foreman
Evan – *Carpentry* Experienced worker
Filip – *s d a* *s* Foreman
Elaine – *s d a* *s* Experienced worker
Tad – *s d a* *s* Trainee

At the morning huddle, AMB's superintendent, Sam, tells the sheet metal and carpentry crews that today's biggest task is to prepare the roof for the HVAC systems. After they discuss the steps involved and the potential hazards that may come up, Sam adds that they need to get started because the afternoon weather forecast is calling for severe thunderstorms with a chance of lightening.

Once on the roof, Francis and Evan from Aiden's Carpentry cut two holes for the sheet metal workers to install the HVAC duct work. Since they won't be starting the installation until after lunch, Francis and Evan screw down pieces of plywood over the holes and put out a few safety cones.

After lunch, as Parson's sheet metal crew is getting ready to start work, Filip, the

As she's telling Tad that everyone needs to be wearing fall protection before they can start their work, Filip starts to interrupt her but stops.

While he would really like to get started before the storm, he realizes the situation gives him an opportunity to recognize Elaine for taking ownership of safety and for demonstrating good safety behavior in front of Tad. So he lets Elaine continue explaining why it's important they all should be wearing fall protection.

After she's done, Filip thanks her for being a good role model and asks Tad to go down and get the fall protection equipment. He adds that if the stormy weather starts, they'll just have to wait it out and maybe even finish-up tomorrow.

So, instead of going ahead with the lift, Ferris brings everyone together and tells them that even though the GC may not be happy about it, he is taking Emily's concern seriously and is going to postpone the lift.
