

Frontline safety leaders Engage and Empower Team Members when they...

Involve crew members in safety decision-making and explain *why* safety is critical.

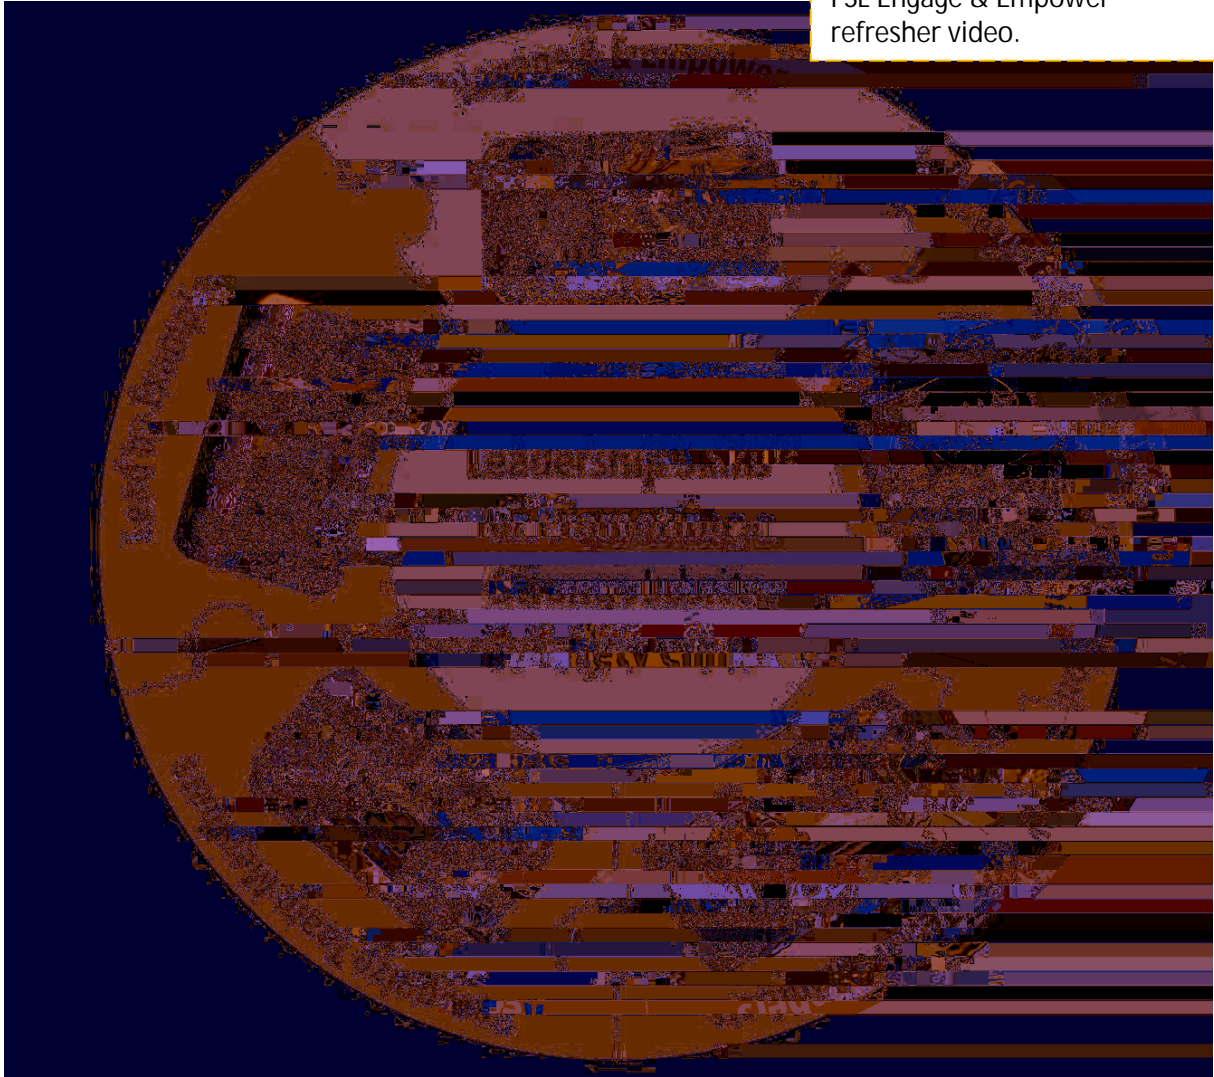

Conduct daily morning safety huddles and walk-arounds throughout the day to speak with workers about tasks and any safety issues.

Make it clear that no one will get in trouble for reporting unsafe conditions, near misses, or injuries.

Engage and Empower

Scan this QR code to access the FSL Engage & Empower refresher video.

Everyone, from the company owner to the foreman to the new employee, should be a safety leader. Effective safety leadership can help prevent jobsite injuries and illnesses.
