- or with other business unions
- 4 or with the labor groups

H. Resources

- International relations

I. Develop ESL program for apprentices and others.

- ocus on vocational EL
- ocus on safety

Summary of steps or activities that unions can work on collectively:

A. Sharing resources and information

- Develop a strategy to share information on a regular basis
- Communicate success stories and learn from our own failures
- Communicate with other unions or organizations and share resources
- Develop strategies that address common issues
- Meet with workers' representatives
- Develop a strategy to address current issues
- Support efforts to transfer current issues to JACs into plans
- Create a list of service or quality problems or an internal work list

B. Collaborate across the trades

- Joint union participation in committees, panels, task forces and costs and resource coordination for joint construction work
- Joint outreach and representation
 - Not a barrier and view pay work collectively not a constraint
- For coalitions across trades
- Work with business to solve problems or joint work orders
